

The Programme

This programme of surveys is undertaken under the auspices of the Consultants in Dental Public Health and Chief Administrative Dental Officers (CDPH/CADOs Group) and is a joint venture between all fifteen Scottish Health Boards and the Chief Scientist Office's Dental Health Services Research Unit based at the University of Dundee.

The results contained in this report have been obtained as a result of the unstinting efforts of a large team of people from all over Scotland to whom the organisers are very grateful. Appendix A lists the participants.

Participating Health Boards

Argyll and Clyde	Greater Glasgow
Ayrshire and Arran	Highland
Borders	Lanarkshire
Dumfries and Galloway	Lothian
Fife	Orkney
Forth Valley	Shetland
Grampian	Tayside
	Western Isles

Co-ordinating Committee Dental Epidemiology, Scotland

Mr MCW Merrett ¹	Chairman and Calibration Course Organiser
Professor NB Pitts ^{2,3}	Calibration and Results Co-ordinator
Professor KW Stephen	Adviser
Miss MM Taylor	Representative of Consultants in Dental Public Health
Mr G Ball	Chairman of Scottish CDPH/CADOs Group

British Association for the Study of Community Dentistry (BASCD) Dental Epidemiology Programme.

¹*Service Co-ordinator, BASCD Dental Epidemiology Programme in Scotland.*

²*Scientific Co-ordinator, BASCD Dental Epidemiology Programme in Scotland.*

³*Scientific Co-ordinator, BASCD UK Dental Epidemiology Programme.*

Table of Contents

Executive Summary	i
Participating Health Boards	iii
Co-ordinating Committee	iii
Lists of Tables, Figures and Maps	v
Contents	iv
1. Introduction	1
2. Sampling	1
3. Training and Calibration	1
4. Dental Examinations	2
5. Data Processing	3
6. Results and Discussion	3
6.1 Dental Caries Results for Scotland	3
6.2 Dental Caries Experience by Health Board	5
6.3 The Proportion With "Caries Experience" in each Health Board	5
6.4 Teeth and Surfaces	6
6.5 Trends in Caries Prevalence	7
6.6 Distribution of Disease and the Care Index	8
6.7 Sealants / Sealant Restorations	9
6.8 Oral Cleanliness	10
6.9 Assessment of Developmental Defects of Enamel	10
6.10 Orthodontic Assessment	11
6.11 Inequalities in Dental Health	11
6.12 The Future	
Acknowledgements	12
References	13

Appendices

Appendix A	Personnel involved in the survey	I
Appendix B	The Training and Calibration Courses	V
Appendix C	Inter and Intra-examiner Agreement	VII
Appendix D	Comparison of D ₃ MFT and D ₃ S in 1994/95 and 1998/99 with confidence limits	IX
Appendix E	Tooth and Surface Caries Results	XI
Appendix F	Dental Trauma	XV
Appendix G	Oral Cleanliness	XVII
Appendix H	SCOTS Index for Developmental Defects of Enamel	XIX
Appendix I	Orthodontic Assessment	XXIII
Appendix J	Codes used for assessment of caries and sealants	XXVII
Appendix K	Abbreviations used for Health Boards	XXIX
Appendix L	Maps of D ₃ MFT results for 14 year olds in Scotland, 1994/95 and 1998/99	XXXI
Appendix K	Map of D ₃ MFT results for 14 year olds in the UK, 1994/95	XXXIII

List of Tables	1	Number of children examined by Health Board
	2	Results for caries experience for Scotland
	3	Results for caries experience for each Health Board
	4	Skewed distribution of decay
	5	Mean DMFT, Care Index and DMFT for those with “caries experience”, by Health Board
	C1	Inter-dentist agreement from calibration trial
	C2	Intra-dentist agreement from survey
	E1	Caries data, by surface, for each Health Board
	E2	Distribution of decay by tooth surface
	F1	Dental trauma
	G1	Mean plaque scores and distribution by Health Board
	G2	Frequency of individual SCOTS classifications, by Health Board
	H1	Frequency of demarcated opacities, diffuse opacities and hypoplasias
	H2	Extent and symmetry of developmental defects
	H3	Frequency of individual SCOTS2/DDE classifications by Health Board
	I1	Orthodontic treatment need, by Health Board, measured by IOTN
	I2	Proportion of children with orthodontic treatment need, by Health Board.
	I3	Proportion of children with orthodontic treatment need, by DEPCAT score

List of Figures and Maps	1	Mean number of decayed, missing and filled teeth, by Health Board
	2	Proportion with “caries experience” by Health Board
	3	Distribution of caries experience by tooth
	4	Trends in caries prevalence for Scottish children, 1983-1999
	5	Proportion of children with sealants/ sealant restorations, by Health Board
	6	Proportion of children “free” of caries experience by DEPCAT score
	D1	Comparison of D_3 MFT in 1994/95 and 1998/99 with confidence limits
	D2	Comparison of D_3 S in 1994/95 and 1998/99 with confidence limits
	E1	Distribution of caries experience (D_3 and F) by surface
	L1	Map of D_3 MFT results for 14 year olds in Scotland (by Health Board) 1995/95
	L2	Map of D_3 MFT results for 14 year olds in Scotland (by Health Board) 1998/99
	M1	Map of D_3 MFT results for 14 year olds in Great Britain, 1994/95
