Personal Conduct

Care for the environment
To help care for the environment, please:

• Try to save energy by switching off lights, turning down radiators and using low temperatures on the washing machine
• Save water by turning off taps
• Make the most of our recycling facilities too!

Look out for more information on campaigns and competitions on the ‘green’ notice boards.

Your agreement contains a number of terms and conditions to make sure that Seabraes is a pleasant, safe and secure place to live. Please be respectful when interacting with students and members of our team.

If your behaviour is deemed unacceptable you may jeopardise your Occupancy Agreement. We also reserve the right to confiscate items that are not permitted on our property or are deemed hazardous until your departure.

Any student who witnesses or is aware of misconduct should report the matter to our security.

Behaviour that breaches your Occupancy Agreement includes (but is not limited to):

• Illegal drug use
• Drinking alcohol in public areas of the accommodation
• Threatening or abusive behaviour
• Any action that puts others at risk

The Residences Discipline Policy is in the folder in your flat.

Cleaning

There is no cleaning service in your flats, so please take responsibility for keeping your flat clean and tidy, including your kitchen, bedroom, bathroom facilities and communal areas.

Student Support provides a blank cleaning rota (located on the pin board). Use this to help avoid any tension by making everyone aware of their own responsibilities. Your flat will remain a pleasant place to be and you will avoid incurring any cleaning charges. Make sure you take responsibility for your own washing up!

Your flat will be inspected three times a year. We will give at least 48 hours’ notice beforehand. If there is an unacceptable level of cleanliness you will receive one written warning before we instruct agency cleaners to clean your flat. You and your flat mates will be responsible for covering these costs. You will also be charged if your flat is not left clean and tidy when you leave.

Tips on keeping your kitchen clean

• Use the vacuum cleaner provided
• Wipe down the cooker/hob after use
• Wipe down the work surfaces after use
• Wipe down the microwave after use and keep it clean and dry
• Remove rubbish and recycling frequently
• Wash, dry and put away dishes and utensils after use
• Mop up any spills straight away
Electrical safety

User instructions for all electrical appliances supplied by Sanctuary Students can be found in the folder in your flat.

Make sure your electrical equipment is safe to avoid putting you and your flatmates at risk.

Before you use electronic equipment, check for any visible damage. We may remove any personal electrical equipment if we believe it is unsafe and request that you arrange for it to be safety tested if you wish to continue to use it.

When using electronic equipment:

1. Always follow the manufacturer’s instructions
2. Do not overload electrical sockets
3. Do not use makeshift wiring. If it is faulty, replace it
4. Do not leave unattended electrical equipment switched on
5. Switch off and disconnect equipment when not in use
6. Switch off and disconnect faulty equipment immediately
7. Do not run cables under rugs or carpets and do not put flammable materials on or near electrical equipment

Keys

Flats 1 - 32: You will receive 2 keys, 1 for access to the building and your bedroom and one for the flat front door and common room.

Flats 32 - 64: You will receive a fob for access to the building and common room and three keys, one for your flat, one for your room and one for your kitchen cupboard.

If you lose your fob or keys, please contact the office straight away and we will replace them for you. There is a charge of £15 per key, and £10 for each fob to cover the cost of replacement, and an additional charge for change of locks if necessary.

Look after your keys and keep them with you at all times. If a member of our team sees a door unlocked, they will lock it. Never attach your address to your keys.

Security

Do not let anyone through the doors or allow someone to follow you in who you don’t know. Do not allow anyone to borrow your keys. Always lock doors and windows when you go out and at night. Do not tamper with window restrictors and use the safety catch where available.

Sanctuary Students can’t be responsible for the loss, damage or theft of your possessions. If you have a laptop or other expensive, portable equipment, make sure it is kept secure and hidden. Money and valuables should never be left unattended in public areas. It is a good idea to name your belongings so they can be identified by the police if they are lost or stolen.

Please report anything suspicious to the office. Sanctuary Students accommodation has 24 hour CCTV monitoring systems in place.

Insurance

Please read the block insurance policy carefully, available online at www.endsleigh.co.uk, policy number HH1573. Many of your personal possessions will be covered in certain circumstances including theft, but some items may need to be insured separately through a provider of your choice.

Personal safety

Be mindful of your personal safety at all times. Plan your journeys in advance and let your friends know where you are going. Avoid poorly lit or remote areas at night and keep valuables hidden.

Program any security numbers or emergency contacts in to your phone so you have them at all times, and have a written copy with you in case your phone is stolen.

Absences

If you are going to be away for more than a night, please let your flatmates know. Please leave a contact number with us if you are going to be away for more than a week.

Accidents

If you have an accident on site, please let us know. We may ask you to complete an accident report form. If you notice anything dangerous or unsafe on site, please let us know straight away.
Fire safety

The Fire Emergency Plan can be found in the folder in your flat.

Your building, your flat and your bedroom are protected by a fire and smoke alarm system. However, you must observe the following guidelines to reduce the risk of fires happening.

1. Never burn candles, oil burners, joss sticks, tea lights or anything with a naked flame or exposed heat source - these are dangerous and are banned from our accommodation.
2. Do not leave cooking unattended and switch off appliances after use.
3. Do not leave cooking unattended and switch off appliances after use.
4. Don't cook using a dirty grill pan or hob.
5. Don't put anything metallic in the microwave.
6. Don't cook after a night out.
7. No portable or personal heaters are permitted, including electric blankets. Chip pans, deep fat fryers, barbecues, gas appliances and plug in air fresheners are also banned from our accommodation because they are a fire hazard.
8. Electric cooking equipment is not allowed in your bedroom (including kettles and toasters).

Any banned or unsafe items may be removed without warning.

Safety equipment

Fire extinguishers and fire blankets are located throughout the building. This equipment exists for your safety. Misusing fire-fighting equipment will seriously jeopardise your Occupancy Agreement, and the lives of you and your neighbours. Any interference with safety equipment may incur penalties against either you alone or you and your flatmates, and may lead to criminal prosecution.

Please inform reception if any firefighting equipment is missing or damaged so that it can be replaced or repaired.

Don't tamper with detectors or cover them – they could save your life.

Avoid false alarms!

To avoid unnecessary fire service call outs and evacuations:

- Do not tamper with detectors – this may activate the alarm
- During and immediately after showering, ensure the ventilation fan is running and your bathroom door is closed.
- Use a steam iron, hair straighteners or dryers and aerosols away from all fire detectors.
- Ensure extractor fans are running, windows are open and the kitchen door is closed when cooking.
- Report any broken ventilation or extractor fans immediately.

Fire drills

The fire alarms are tested every week. Fire drills are a legal requirement and will be held at least twice a year. On hearing the alarm you must evacuate the building immediately. Familiarise yourself with the fire action notices, evacuation routes and assembly point.

On discovering a fire:

1. Sound the fire alarm
2. Get out of the building

6. Do not attempt to re-enter the building until a fire officer or member of our team says it is safe to do so.
