  32. Connected Charitable Institutions
Scope of the Financial Statements

The financial statements, presented to the University Court, have been prepared on a consolidated basis and include results of the University of Dundee and its subsidiary companies. Details of the Group are listed within note 31 of the financial report.

Results for the Year

The University continued to improve its financial position, with an overall surplus for the year of £7.2m. This has been achieved despite a reduction in income and reflects the savings from the restructuring which took place in the previous year. The Group’s summarised results are as follows:

<table>
<thead>
<tr>

The 2011/12 Financial Year is the last year covered by the University’s Strategic Framework to 2012.
The operating surplus of £6.1m equates to 2.7% of income, which represents significant progress towards the University’s primary financial sustainability target of 3%. The chart below illustrates the progress made in recent years in generating a sustainable surplus.

**Fig. 2** Operating surplus

---

**Income**

Total income for the year fell by 2.6% to £223.3m. Income from the Scottish Funding Council (SFC) fell by £4.6m mainly as a result of a lower teaching grant while SFC research grants were largely unchanged. Total income from SFC continues to fall as a percentage of total income, now standing at 35.1%.

Income from tuition fees and education contracts rose by £1.3m. Within this figure the increase in fees from students coming from outside the EU was just £0.3m. The University continues to target further growth in this area, although efforts have been hampered by difficulties experienced by students in relation to visa regulations. Income from this category represents just 6.7% of total income which is significantly lower than comparable institutions.

---

Research grants and contracts from other sources fell by £5.5m with the largest declines seen in funding from research councils, down £5.5m, and UK charities, down £1.1m. Research funded by the European Commission continues to grow reaching £5.4m in the year. The overall decline reflects the lower value of research grants awarded in the previous year. The value of grants awarded during 2011/12 has recovered to previous levels and this should lead to an increase in research income over the next year.

**Fig. 4** Research grants and contracts

---

The University continues to dispose of surplus properties which both generates cash to invest elsewhere in the estate and reduces ongoing running costs. However the value of disposals was below target reflecting the condition of the local property market.
Expenditure

Total expenditure, before exceptional costs, fell by £11.0m compared to the previous year. Significant savings were made in staff costs with restructuring costs falling by £3.2m and ongoing staff costs by a further £2.2m.

The following diagram shows that staff numbers are the lowest for six years despite income increasing by 27% over the same period.

Other operating expenses were reduced by £4.6m in line with the reduction in teaching grants. Costs savings were made in both academic departments and administration and central services allowing the University to make a significant contribution towards the Efficient Government Initiative.

The depreciation charge for the year reduced from £17.5m to £16.3m. The main change related to short-life research equipment which is depreciated over the life of the contract from which it is funded. Interest and other finance costs increased slightly to £1.0m with the increase due to higher commitment fees on the University’s borrowing facilities which extend to 2016.

The results for the year include the University’s share of the loss in Dundee Student Villages (DSV) which is accounted for as an associated company. DSV is a separate entity which was established to build and operate the University’s student residences. In line with the DSV operating model accounting losses are expected during the first years of operation. The company continues to perform ahead of its funding requirements.
Capital Expenditure Programme

Additions to fixed assets in the year were £14.3m, a similar level to the previous year. Of this £6.5m was funded from capital grants with the balance financed from University funds. The University has capital expenditure plans for several years ahead which aim to keep the current estate in a good condition while also making strategic investments in new facilities. In July 2012 work commenced on the new Centre for Translational and Interdisciplinary Research (cTiR), a £12.5m development for the College of Life Sciences.

A key measure for the University is the proportion of the estate by floor area classified as new or sound. This remains the same as the previous year at 69%, as illustrated below. The target is to increase this to 70% by 2015 which reflects the likely level of investment over the next few years. The University seeks to make better use of its existing space through enhancing its approach to space management, ensuring ‘fitness for purpose’ and reducing the overall physical space footprint.
Treasury and Investments

The total value of cash and short term investments increased by £0.6m over the year to stand at £32.5m at the year end. The favourable cash position is helped by a significant proportion of income being received on account. At the end of the year total income received on account amounted to £38.2m. The balance sheet continues to show net current liabilities which amounted to £11.7m at the end of the year.

The University has in place a revolving credit facility of up to £34m. The nature of the revolving credit facility allows the University to borrow only to the extent necessary to meet cash requirements. The University also has a fully drawn loan facility of £8.5m which was used to fund the construction of a research building.

Endowments increased by £0.6m in the year despite the market value of investments falling by £0.3m. Management of these investments continued in the hands of independent fund managers whose performance is monitored by the University’s Finance and Policy Committee.

Supplier Payments

The University seeks to support the code of good practice in its relationship with suppliers. It is the University’s policy that payments to suppliers are made in accordance with those terms and conditions agreed between the University and its suppliers, provided that all trading terms and conditions have been complied with. At 31st July 2012, the University had an average of 22 days’ purchases outstanding in trade creditors. Interest paid under the Late Payments of Commercial Debts (Interest) Act 1998 is £nil.

Pensions

The main pension schemes of the Group are the Universities Superannuation Scheme (USS) and the University of Dundee Superannuation Scheme (UODS). A detailed statement of these schemes is shown in Note 30 of the financial report, which has been prepared in accordance with FRS 17.

Following the triennial valuation of UODS undertaken as at 1 August 2011, the University’s normal pension contributions remain at 22.1% of pensionable earnings. This level of contribution (including cost of death in service) has been fixed to recover the deficit in the pension fund, identified in the valuation, over a period of 8 years.

The University’s pension contribution rate to USS continues to be 16%.

Total pension costs for the year fell by £0.9m to £14.4m. The reduction was partly due to a fall in the number of current members and partly due to the new benefit structures which were introduced in 2011.
Equal Opportunities

The University gives full consideration to applications for employment from disabled persons. Where existing members of staff become disabled, it is the University’s policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training and career development and promotion to disabled employees wherever appropriate. The University is actively engaged in improving Equal Opportunities and Diversity awareness of its staff through mandatory training, including elements relating to disability.
Principal Risks and Uncertainties

The identification and management of risks is firmly embedded within the University’s structure and processes. The Institutional Risk Register is formally reviewed by the Senior Management Team and the Audit Committee as well as being discussed at Court.

A major risk for the University is associated with the potential for significant income streams to fall suddenly. Funding from the SFC represents over 35% of the University’s total income. The publication by the SFC of indicative funding for the Scottish Higher Education sector for the next three years has helped to reduce the uncertainty around this source of income which has been subject to significant variation in the last few years.

The changes in the way undergraduate courses are funded at universities in England, Wales and Northern Ireland also affects universities in Scotland. The number of students from the rest of the UK (RUK) accepting places at Dundee in September 2012 fell by 28.7% and it is unclear whether this will become a trend in future years. The reduction in RUK students does impact income as these students are no longer included within the numbers funded by SFC grants.

Research is another major contributor to the University and income from this source declined during the year. However, the value of new grants awarded in 2011/12 increased over the previous year which should underpin this source of income in 2012/13. The result of the Research Excellence Framework (REF) in 2014 will have a significant impact on research income beyond that date and the University has well developed plans to maximise its result from the REF.

Demand for postgraduate courses at the University remains strong, particularly from overseas students. Immigration controls continue to be applied rigorously and the extended time taken to process visas by consulates in some countries causes delays for a significant number of applicants. In addition, action by the UK Border Agency (UKBA) against universities believed to be in default of UKBA regulations may change the way overseas students perceive the UK as a place where they would wish to pursue their education.

The strength and reputation of the University depends very much on the quality, experience and expertise of its employees. In a competitive environment other organisations will look to recruit our staff, particularly in the period ahead of the REF. There are many initiatives across the University to ensure we recruit, retain and develop excellent staff and to minimise the loss of any high performing individuals.

Staff costs are the most significant costs borne by the University. In order to ensure we offer remuneration which is consistent with the rest of the higher education sector we participate in national pay negotiations as a member of the Universities and Colleges Employers Association (UCEA). All staff are also able to join a defined benefit pension scheme. In line with many similar schemes the cost of providing this benefit has risen significantly in recent years due to historically low interest rates and increasing longevity. Recent changes to the benefit structures of these schemes has helped to moderate these cost increases.

Other costs continue to be tightly managed through budgetary controls and effective procurement. The University made a full contribution to the Scottish Government’s Efficient Government Initiative, which finished in 2011, and will continue to use the same methodology to deliver further savings and ensure the University continues to provide value for money.

Financial Strategy to 2017

A new financial strategy has been developed as an integral part of the University’s new strategy to 2017. The main part of the financial strategy is to achieve an increasing return on income. This will give greater financial strength to the organisation in a difficult economic environment where access to additional funding is uncertain. It will also provide funds to allow further investment in all aspects of the University’s activity.
Conclusion

The financial performance for the year shows a significant improvement over previous years and represents the results of many initiatives to improve the financial sustainability of the organisation. However, the outlook for the future remains uncertain both in the HE sector and the wider economy. A number of strategic investments to strengthen the University are planned for 2012/13 and the cost of these coupled with the relentless rise in costs means that the operating surplus is expected to fall back in the next financial year. Nevertheless, the investments in pursuit of the new financial strategy should position the University well to meet these challenges.

Eric F Sanderson

Professor C Peter Downes OBE FRSE
Principal and Vice-Chancellor
Corporate Governance

The University endeavours to conduct its business in accordance with the seven principles identified by the Committee on Standards in Public Life (selflessness, integrity, objectivity, accountability, openness, honesty and leadership), and with the guidance to universities from the Committee of University Chairs in its Guide for Members of Higher Education Governing Bodies in the UK (2009). The University’s governance framework and processes follow the principles of the Financial Reporting Council’s UK Corporate Governance Code (2010) ‘UK Code’, insofar as they apply to the University sector, and the Turnbull Committee guidance.

The University is an independent corporation, whose legal status derives from a Royal Charter originally granted in 1967. Its objects, powers and framework of governance are set out in the Charter and its supporting Statutes, as amended from time to time with the approval of the Privy Council.

The Charter and Statutes require the University to have two separate bodies to oversee and manage its activities, as follows:

(a) **Court** is the governing body, responsible for the finance, property, investments, employment of staff and general business of the University, and for setting the general strategic direction of the institution.

It has a total membership of 23, with a majority of lay members from outside the University (from whom its Chairperson must be drawn). Members also include representatives of the staff of the University and the student body.

(b) Subject to the general control and approval of Court, **Senate** is the academic authority of the University and draws its membership entirely from the academic staff and the students of the institution. Its role is to direct and regulate the teaching and research work of the University. Senate is chaired by the Principal and Vice-Chancellor.

Although Court meets at least five times each academic year, much of its detailed work is handled by committees, i.e. Finance and Policy, Human Resources, Governance and Nominations, Remuneration and Audit Committees. These committees have written remits and their decisions and recommendations are formally reported to Court. They each have a specified membership, including lay members and a lay Convener, which is approved on an annual basis.

The composition of Court and its Committees, along with the attendance of members at meetings during the session 2011/12, is set out below.
The Remuneration Committee, which has an entirely lay membership, determines the remuneration of the most senior staff, including the Principal.

The Audit Committee, which likewise has an entirely lay membership including additionally co-opted non-Court members, is chaired by a lay member of Court and meets four times a year, with the University’s internal and external auditors in attendance. The Committee considers detailed reports from the internal and external auditors, together with recommendations for the improvement of the University’s systems of internal control and management’s responses and implementation plans.

The Audit Committee’s role is one of high level review of the arrangements for internal control and value for money. It has authority to investigate any matters within its terms of reference. Whilst senior university officers attend meetings of the Committee, as necessary, they are not members of the Committee. In order to safeguard the independence of the University’s external auditors, provision by them of non-audit services is subject to the approval of the Audit Committee.

The effectiveness of Court and of its committees is evaluated by an internal review process which is carried out periodically. The first such review took place in 2000, with similar exercises undertaken in 2004 and 2009. The next review is scheduled at the latest for 2014. In addition the Audit Committee carried out its own self-assessment exercise in 2012 in accordance with best practice. The Chairperson of Court is expected to meet with other Court members on an individual and informal basis biannually to discuss their contribution and provide guidance if needed; this also provides an opportunity for the Chairperson to assess whether members continue to have confidence in the conduct of Court business. The Chairperson is responsible for ensuring that the University is well connected with, and responsive to, key stakeholder groups – many of whom are represented on Court. In doing so, the Chairperson meets informally on a regular basis with senior academic managers.

The Principal and Vice-Chancellor is the chief academic and administrative officer of the University, who has a general responsibility to Court for maintaining and promoting the efficiency and good order of the University. As Chief Executive, the Principal exercises considerable influence upon the development of institutional strategy, the identification and planning of new developments, and
shaping of the institutional ethos. Under the terms of the formal Financial Memorandum between the University and the Scottish Funding Council, the Principal is also the accounting officer of the University.

The Principal and Vice-Chancellor chairs a Senior Management Team and presents a written report on its work to each meeting of Court. The Senior Management Team also comprises the Vice-Principals, the University Secretary, the Director of Finance and other officers as required.

The University is operating towards the strategic goals and objectives set out in its Strategic Framework to 2012, which Court approved in June 2007. In measuring its progress in achieving these goals and objectives, Court receives regular reports from the Director of Strategic Planning on an agreed set of performance indicators. These range from undergraduate entry requirements and graduate employment rates to fee income levels, volume of research, income per academic full time equivalent (fte) and space and energy efficiency. A new University strategy for the period beyond 2012 was developed and agreed during the academic session 2011/12.

The powers reserved to Court and those it has delegated to its committees, to Senate and to the Principal and other senior officers, are set out in a Schedule of Delegation and Decision-Making Powers, which is regularly reviewed.

The University maintains a register of interests of members of Court and senior officers, which may be consulted by arrangement with the University Secretary. The interests of individual members are also published on the University’s web pages.

Court is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the University and which enable it to ensure that the financial statements are prepared in accordance with the Charter and Statutes, the Statement of Recommended Practice (Accounting for Further and Higher Education Institutions) and other relevant accounting standards. In addition, within the terms and conditions of the Financial Memorandum agreed with the Scottish Funding Council (SFC), Court is required to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the University and of the surplus or deficit and cash flows for that year.
In causing the financial statements to be prepared, Court has to ensure that:

• suitable accounting policies are selected and applied consistently;
• judgement and estimates are made that are reasonable and prudent;
• applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
• the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the University will continue in operation. Court is satisfied that it has adequate resources to continue in operation for the foreseeable future: for this reason the going concern basis continues to be adopted in the preparation of the financial statements.

Court also has a responsibility to:

• ensure that funds from the SFC are used only for the purposes for which they have been given and in accordance with the Financial Memorandum with the SFC and any other conditions which the SFC may from time to time prescribe;
• ensure that there are appropriate financial and management controls in place to safeguard public funds and funds from other sources;
• safeguard the assets of the University and hence to take reasonable steps to prevent and detect fraud;
• ensure reasonable steps have been taken to secure the economical, efficient and effective management of the University’s resources and expenditure.

The University’s system of internal financial control includes the following key elements:

• detailed financial operating procedures for the authorisation and control of expenditure, whose provisions are approved by the Finance and Policy Committee and monitored by the Audit Committee;
• a professional internal audit team whose annual programme is approved by the Audit Committee on Court’s behalf and which submits to the Audit Committee an annual report on internal audit activity and on the adequacy and effectiveness of the University’s system of internal financial and other controls.

Any system of internal financial control, however, only provides reasonable, not absolute, assurance against material mis-statement or loss.

As part of the overall system of internal control Court has adopted a strategy for risk management. The main components of this strategy comprise regular review of an institutional risk register, the identification and evaluation by Colleges and support services of risks to their own operations, and planning for disaster recovery and business continuity. The effectiveness of the risk management process has been overseen by a broadly based Risk Management Monitoring Group, which is responsible to Court via the Audit Committee and which also provides information to the senior management. During the year in question, the Court and the Audit Committee have taken an active role in identifying and evaluating the significant risks facing the University; this process includes oversight of the University’s strategy for managing these risks. The process has been regularly reviewed.

Any enquiries about the constitution and governance of the University should be addressed to the University Secretary.

### NOTES

- Lay Members
- c = Chairperson/Convener of Committee
- The Audit Committee has two additional co-opted members, who are not members of Court: Mr J Barnett (attended 4 times in 2011/12) and Mr I Stewart (attended 4 times in 2011/12).
- The Human Resources Committee has two additional staff members, who are not members of Court: Mr I Leith (attended 2 times in 2011/12) and Vice-Principal Professor CA Whatley (attended 2 times in 2011/12).
- Mr Swinley and Mr Richmond are also Trustees of the University of Dundee Superannuation Scheme and both attended all of the Trustees’ 4 meetings in 2011/12 (Mr Swinley as the Chairperson).
We have audited the group and parent institution financial statements (the “financial statements”) of the University of Dundee for the year ended 31 July 2012 which comprise the Statement of Principal Accounting Policies, the Consolidated Income and Expenditure Account, the Statement of Group Total Recognised Gains and Losses, the Balance Sheets, the Consolidated Cash Flow Statement, the Reconciliation of Net Cash Flow Movement in net Funds and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Respective responsibilities of the Court and auditors

As explained more fully in the Corporate Governance Statement, the Court (who are also charitable trustees for the purposes of charity law) are responsible for the preparation of financial statements which give a true and fair view.

We have been appointed as auditors under section 44(1)(c) of the charities and Trustee investment (Scotland) act 2005 and report in accordance with regulations made under that Act. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board’s Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the Court in accordance with section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and regulation 10 of the Charities Accounts (Scotland) Regulations 2006 (as amended) and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Opinion on financial statements

In our opinion the financial statements:
• give a true and fair view of the state of the group’s and parent institution’s affairs as at 31 July 2012 and of the group’s income and expenditure, recognised gains and losses and cash flows, for the year then ended;
• have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
• have been properly prepared in accordance with the Statement of Recommended Practice (SORP) on Accounting in further and Higher Education; and
• have been prepared in accordance with the requirements of the Charities and Trustee Investment (Scotland) Act 2005 and regulation 14 of the Charities Accounts (Scotland) Regulations 2006 (as amended).

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group’s and parent institution’s circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Court; and the overall presentation of the financial statements. In addition, we read all the financial and non financial information in the Operating and Financial Review to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.
Opinion on other matters prescribed in paragraph 39 of the mandatory requirements attached to the Scottish Funding Council’s Financial Memorandum with the University of Dundee

In our opinion, in all material respects:

- funds from whatever source administered by the parent institution for specific purposes have been properly applied to those purposes and, if relevant, managed in accordance with relevant legislation and any other terms and conditions attached to them; and

- funds provided by the Funding Council have been applied in accordance with the Financial Memorandum and the mandatory requirements attached to the Financial Memorandum.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities Accounts (Scotland) Regulations 2006 (as amended) require us to report to you if, in our opinion:

- the information given in the Operating and Financial Review is inconsistent in any material respect with the financial statements; or

- proper accounting records have not been kept by the parent institution; or

- the parent institution financial statements are not in agreement with the accounting records and returns; or

- we have not received all the information and explanations we require for our audit.

PricewaterhouseCoopers LLP
Chartered Accountants and Statutory Auditors
Glasgow

December 2012

PricewaterhouseCoopers LLP is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006

Notes:

a) The maintenance and integrity of the University of Dundee website is the responsibility of the Court; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

b) Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.
Financial Statements
Year ended 31 July 2012
Statement of Principal Accounting Policies

1. Basis of Preparation

The financial statements have been prepared in accordance with the Statement of Recommended Practice (SORP): Accounting for Further and Higher Education 2007 and in accordance with applicable Accounting Standards in the United Kingdom. The financial statements have also been prepared in accordance with the Accounts Direction issued by the Scottish Funding Council.

The financial statements are prepared in accordance with the historical cost convention modified to include listed investments at their market value.

2. Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the University and its subsidiary undertakings for the financial year to 31 July. A list of these subsidiary undertakings is included in note 31. The results of subsidiaries acquired or disposed of during the period are included in the consolidated income and expenditure account from the date of acquisition or up to the date of disposal. Intra-group transactions are eliminated on consolidation.

Entities, other than subsidiaries, in which the Group has a participating interest and over whose operating and financial policies the Group exercises a significant influence are treated as associates. In the Group Financial Statements, associates are accounted for using the equity method, including the appropriate share of the results and reserves of each associate. The consolidated income and expenditure account includes the Groups share of the profit or losses of Dundee Student Villages Limited (DSV), an associated undertaking, and the consolidated balance sheet similarly includes the Groups share of the net assets or liabilities of DSV.

The consolidated financial statements do not include those of the Dundee University Students Association as it is a separate organisation in which the University has no control or significant influence over policy decisions.

3. Income Recognition

Scottish funding council block grants are accounted for in the period to which they relate.

Fee income is stated gross and credited to the income and expenditure account over the period in which the students are studying. Where the amount of the tuition fee is reduced, by a discount for prompt payment, income receivable is shown net of the discount.

Bursaries and scholarships are accounted for gross as expenditure and not deducted from income.

Recurrent income from grants, contracts and other services rendered are accounted for on an accruals basis and included to the extent of the completion of the contract or service concerned together with any related contributions towards overhead costs; any payments received in advance of such performance are recognised on the balance sheet as liabilities.

Income from the sale of goods or services is credited to the income and expenditure account when the goods or services are supplied to the external customers against the order received or the terms of the contract have been satisfied.

Endowment and investment income is credited to the income and expenditure account on a receivable basis. Income from restricted endowments not expended in accordance with the restrictions of the endowment is transferred from the income and expenditure account to restricted endowments. Any realised gains or losses from dealing in the related assets are retained within the endowment in the balance sheet.

Income from short-term deposits is credited to the income and expenditure account on a receivable basis.
4. Agency Arrangements

Funds the University receives and disburses as paying agent on behalf of a funding body or other body, where the University is exposed to minimal risk or enjoys minimal economic benefit related to the receipt and subsequent disbursement of the funds, are excluded from the income and expenditure of the University.

5. Leases and Hire Purchase Contracts

Expenditure on fixed assets acquired under finance leases and the related lease obligations is capitalised in so far as the costs exceed the University’s capitalisation threshold. The excess of lease payments over recorded lease obligations are treated as finance charges which are amortised over each lease term to give a constant rate of charge on the remaining balance of the obligations.

Rental costs under operating leases are charged to expenditure in equal annual amounts over the periods of the leases.

6. Taxation Status

The University is a charity within the meaning of the Charities and Trustee Investment (Scotland) Act 2005 and as such is a charity within the meaning of Para 1 of Schedule 6 to the Finance Act 2010 and is recorded on the index of charities maintained by the Office of the Scottish Charity Regulator (Charity No. SC015096). Accordingly, the University is potentially exempt from taxation in respect of income or capital gains received within categories covered by section 287 CTA 2009 and sections 471, and sections 478-488 of the Corporation Tax Act 2010 (CTA 2010) (formerly enacted in Section 505 of the Income and Corporation Taxes Act 1988 (ICTA)) or Section 256 of the Taxation of Chargeable Gains Act 1992 to the extent that such income or gains are applied to exclusively charitable purposes.

The University receives no similar exemption in respect of Value Added Tax (VAT). Irrecoverable VAT on inputs is included in the costs of such inputs. Any irrecoverable VAT allocated to tangible fixed assets is included in their cost.

Deferred taxation for subsidiaries is provided on the liability method on all timing differences which are expected to reverse in the future without being replaced, calculated at the rate at which it is estimated that taxation will be payable.

7. Land and Buildings

Land and buildings are stated at cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Donated land and buildings are stated at fair value at the date of receipt.

Costs incurred in relation to a tangible fixed asset after its initial purchase or production are capitalised to the extent that they increase the expected future benefits to the University from the existing tangible fixed asset beyond its previously assessed standard of performance; the costs of any such enhancements are added to the gross carrying amount of the tangible fixed asset concerned.

Non-recurrent grants received in respect of the acquisition or construction of fixed assets are treated as deferred capital grants. The grants are credited to deferred capital grants and an annual transfer made to the income and expenditure account over the useful economic life of the asset at the same rate as the depreciation charge on the asset for which the grant was awarded.

Depreciation

Buildings are depreciated over their estimated useful lives of up to 50 years on a straight line basis. Alterations and additions to buildings are depreciated over the expected useful life of the work carried out. No depreciation is provided on land.

Repairs and maintenance

Expenditure to ensure that a tangible fixed asset maintains its previously recognised standard of performance is recognised in the income and expenditure account in the period it is incurred. The University has a planned maintenance programme, which is reviewed on an annual basis.

Assets used by the University

The University occupies various premises owned by the NHS. The main locations are subject to service charges which are reflected in the income and expenditure account but are not subject to formal rentals. It is not possible to attribute value to these arrangements and hence these assets are not included in the financial statements.

Assets held for resale

Assets for resale are land and buildings which are no longer in use by the University and which the University is committed to sell and not replace. These assets are valued at the lower of net book value and net realisable value and included in current assets.
8. Equipment

Equipment, including PCs and software, costing less than £10,000 per individual item or group of related items is written off to the income and expenditure account in the year of acquisition. All other items of equipment are capitalised and depreciated on a straight line basis over their expected useful lives as follows:

- Plant: 20 years
- Computer equipment: 4 - 12 years
- Research equipment: Shorter of 4 years or project life
- Other equipment: 4 years

Where equipment is acquired with the aid of specific grants it is capitalised and depreciated as above. The related grant is treated as a deferred capital grant and released to income over the expected life of the equipment.

9. Investments

Fixed asset investments are included in the balance sheet at market value except for investments not listed on a recognised stock exchange, which are carried at historical cost less any provision for impairment in their value.

Increases in value arising on the revaluation of fixed asset investments is carried as a credit to the revaluation reserve via the statement of total recognised gains and losses; a diminution in value is charged to the income and expenditure account as a debit to the extent that it is not covered by a previous revaluation surplus.

Investments that form part of Endowment Assets are included in the balance sheet at market value.

Investments in associates are shown in the consolidated balance sheet at attributable share of net assets.

Current asset investments are included in the balance sheet at the lower of their original cost and net realisable value.

Interests in land and/or buildings held for their investment potential are included in the balance sheet at their market value without charging depreciation.

10. Stocks

The stocks comprise mainly of building maintenance, catering, central stationery and laboratory supplies, and are brought into the accounts at the lower of cost and net realisable value. Where necessary, provision is made for obsolete, slow-moving and defective stocks.

Neither consumable materials held in academic departments nor library books are included in stocks.

11. Cash Flows and Liquid Resources

Cash flows comprise increases or decreases in cash. Cash includes cash in hand, cash at bank and deposits repayable on demand and overdrafts, but excludes any assets held as endowment asset investments. No other investments, however liquid, are included as cash.

Liquid resources include short-term deposits with recognised banks and building societies and government securities held as part of the University’s treasury management activities.

12. Foreign Currencies

Transactions denominated in foreign currencies are recorded at the rates of exchange ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling either at year end rates or, where there are related forward foreign exchange contracts, at contract rates. The resulting exchange differences are dealt with in the determination of income and expenditure for the financial year.

13. Intra Group Transactions

Gains or losses on any intra-group transactions are eliminated in full. Amounts in relation to debts and claims between undertakings included in the consolidation are also eliminated.

Balances between the University and its associates are not eliminated; unsettled normal trading transactions are included as current assets or liabilities.
14. Accounting for Charitable Donations

Unrestricted donations
Charitable donations are recognised in the accounts when the charitable donation has been received or if, before receipt, there is sufficient evidence to provide the necessary certainty that the donation will be received and the value of the incoming resources can be measured with sufficient reliability.

Endowment funds
Where charitable donations are restricted to a particular objective specified by the donor, these are accounted for as an endowment. There are three main types:

Restricted permanent endowments – the capital fund is maintained and the income thereon must be applied to a purpose specified by the donor.

Unrestricted permanent endowments – the capital fund is maintained and the income thereon can be applied to the general purposes of the University.

Restricted expendable endowments – trustees have the discretion to convert endowed capital into income and the income must be applied to a purpose specified by the donor.

Income and capital gains
Income earned on the endowment assets is shown as ‘endowment and investment income’ in the income and expenditure account. Increases/decreases in value arising on the revaluation or disposal of endowment assets are reported in the statement of total recognised gains and losses.

Donations for fixed assets
Donations received to be applied to the cost of a tangible fixed asset are shown on the balance sheet as a deferred capital grant. The deferred capital grant is released to the income and expenditure account over the same estimated useful life that is used to determine the depreciation charge associated with the tangible fixed asset.

Gifts in kind, including donated tangible fixed assets
Gifts in kind, other than property donated for use by the University, are included in ‘endowment and investment income’ in the income and expenditure account.

The value of property donated for use by the University is included at valuation in tangible fixed assets. The corresponding credit for land is taken to the income and expenditure account as a donation and for property other than land is taken to deferred capital grants.

15. Pension Schemes

The two principal pension schemes for the University’s staff are the Universities Superannuation Scheme (USS) and the University of Dundee Superannuation and Life Assurance Scheme (UODS). Both schemes are defined benefit schemes.

Pension costs for the UODS scheme are assessed on the latest actuarial valuation of the scheme and are accounted for on the basis of FRS 17.

The USS scheme is a multi-employer scheme and it is not possible to identify the assets of the scheme which are attributable to the University. In accordance with FRS 17 the USS scheme is accounted for on a defined contribution basis and contributions to this scheme are included in expenditure in the period in which they are payable.

The University participates in a number of other defined benefit pension schemes. Where the scheme is a multi-employer scheme and it is not possible to identify the University’s share of the underlying assets and liabilities, it is accounted for on a defined contribution basis and contributions are included in expenditure in the period in which they are payable.

16. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the institution has a present legal or constructive obligation as a result of a past event, it is probable that a transfer of economic benefit will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is discounted to present value where the time value of money is material. The discount rate used reflects current market assessments of the time value of money and reflects any risks specific to the liability.

The attributable share of net liabilities in associates is shown as a provision in the consolidated balance sheet.

Contingent liabilities are disclosed by way of a note, when the definition of a provision is not met and includes three scenarios: possible rather than a present obligation; a possible rather than a probable outflow of economic benefits; an inability to measure the economic outflow.

Contingent assets are disclosed by way of a note, where there is a possible, rather than present asset arising from a past event.

Unsecured loans is represented by a revolving credit facility of £34m repayable in 2016. It is the University's option for each advance to float against LIBOR or be at a fixed rate. At 31 July 2012, the amount drawn down was £nil. There is also a loan facility of £8.5m repayable in 2014, floating against LIBOR, to fund the construction of a new research building of which the amount drawn down was £8.5m.

16. Provisions for liabilities - continued

The above pension provision reflects the University’s commitments to pay pension benefits to existing and former employees where a separate scheme is not in place. A valuation of the existing pension provision at 31 July 2012 was carried out by the University’s appointed independent actuary, Xafinity Consulting.

Other provisions include amounts relating to the voluntary severance scheme; VAT; legal claims and changes in accounting for research. The exact amount and timing of these outflows is uncertain.

The University has a 33.3% holding in Dundee Student Villages (DSV) which operates and maintains University residences.

Provision has not been made for the following capital commitments at 31 July:

26. Contingent liabilities

The University has provided a guarantee to the Clydesdale Bank on a loan of £1.9m to Dundee University Students’ Association of which £649k remains outstanding at 31 July 2012. There is no information currently available which would suggest that this guarantee will be called upon.

The University, through its agreement with Dundee Student Villages (DSV), has the potential obligation to purchase the West Park Conference Centre (WPCC) should the DSV board decide to cease the WPCC business.

The University, jointly with six other universities, has provided a pension guarantee to the Universities Superannuation Scheme (USS) in the event of the cessation of membership of the USS by Advanced Procurement for Universities and Colleges (APUC).

27. Post balance sheet events

No major events requiring disclosure have taken place after the balance sheet date.

28. Bursaries and other student support funds

Scottish Funding Council grants are available solely for students: the University acts only as paying agents. The grants and related disbursements are therefore excluded from the Income and Expenditure Account.
Notes to the Financial Statements

29. Disclosure of related party transactions
Due to the nature of the University’s operations and the composition of the University Court being drawn from local public and private sector organisations, it is inevitable that transactions will take place with organisations in which a member of University Court may have an interest. All transactions involving organisations in which a member of University Court may have an interest, including those identified below, are conducted at arms length and in accordance with the University’s normal procurement procedures.

A review of the register of interests of Court Members was made and no material interests were identified.

The consolidated financial statements consolidate the financial statements of the subsidiary companies listed in Note 31. Transactions and balances between the Group entities have been eliminated on consolidation and have not been disclosed (in accordance with FRS 8).

Balances due to related parties not disclosed separately on the balance sheet at 31 July were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Due to Dundee Student Villages</td>
<td>(34)</td>
<td>(1)</td>
</tr>
<tr>
<td>Due from Dundee Student Villages</td>
<td>34</td>
<td>31</td>
</tr>
</tbody>
</table>

During the year the University transferred £6.9m of student rental income to Dundee Student Villages and £141k of conference and room hire was purchased from its trading subsidiary West Park Centre Limited.

30. Pension schemes
The two principal pension schemes for the University’s staff are the Universities Superannuation Scheme (USS) and the University of Dundee Superannuation and Life Assurance Scheme (UODS). Also for former academic and support staff of Duncan of Jordanstone College of Art and of Northern College, contributions are paid to the Scottish Teachers Superannuation Scheme (STSS) and two local government schemes, Strathclyde Pension Fund and Tayside Superannuation Fund.

The total pension cost for the University and its subsidiaries was:

<table>

Outstanding pension contributions at 31 July 1,938 1,884
30. Pension schemes – continued

Other pension schemes
Former members of academic staff of Duncan of Jordanstone College of Art and of Northern College are covered by the Scottish Teachers Superannuation Scheme (STSS), which is an unfunded, multi-employer, defined benefits scheme. The University is unable to identify its share of the underlying assets and liabilities of the scheme. Accordingly, the University has taken advantage of the exemption in FRS 17 and has accounted for its contributions as if it were a defined contribution scheme.

The University also participates in two local government schemes (Strathclyde Pension Fund and Tayside Superannuation Fund), in respect of support staff who are former members of staff of Duncan of Jordanstone College of Art and of Northern College. For reasons of materiality, the University has accounted for its contributions as if these were defined contribution schemes.

1. Universities Superannuation Scheme (USS)
USS is valued every three years by professionally qualified independent actuaries using the projected unit method, the rates of contribution payable being determined by the trustees on the advice of the actuaries. In the intervening years, the USS actuary reviews the progress of the USS scheme.

Following the latest actuarial valuation of the scheme at 31 March 2011, the contribution rate payable by the University to USS remained unchanged at 16% of pensionable salaries.

Since the previous valuation as at 31 March 2008 there have been a number of changes to the benefits provided by the scheme although these became effective from October 2011. The principal change is that new entrants are now provided on a Career Revalued Benefits (CRB) basis rather than a Final Salary basis.

Because of the mutual nature of the scheme, the University is unable to identify its share of the underlying assets and liabilities of the scheme on a consistent and reasonable basis. Accordingly, the University has taken advantage of the exemption in FRS 17 and has accounted for the scheme as if it were a defined contribution scheme. As a result, the amount charged to the income and expenditure account represents the contributions payable to the scheme in respect of the accounting period.

2. University of Dundee Superannuation Scheme
The group operates a defined benefit pension scheme, the University of Dundee Superannuation Scheme (UODS). The scheme is funded by the payment of contributions to a separately administered fund. UODS is valued every three years by a professionally qualified independent actuary using the projected unit method, the rates of contribution payable being determined by the trustees on the advice of the actuaries. In the intervening years, the UODS actuary reviews the progress of the LGSS scheme.

Following the triennial valuation undertaken as at 1 August 2011, the University’s normal pensions contributions remain at 22.1% of pensionable earnings. This level of contribution (including cost of death in service) has been fixed to recover the deficit in the pensions fund, identified in the triennial valuation, over a period of 8 years.

With effect from 1 August 2011, benefit accrual in the scheme changed from a Final Salary structure to a Career Average Revalued Earnings (CARE) structure.

Under the definitions set out in FRS 17, UODS is a defined benefit pension scheme. Accordingly, the University has implemented the accounting standard “FRS 17: Accounting for Retirement Benefits” to determine the University’s net pension liability.

2. University of Dundee Superannuation Scheme - continued

The material assumptions used by the actuary for FRS 17 at 31 July were:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Price increases – RPI</td>
<td>2.3</td>
<td>2.95</td>
</tr>
<tr>
<td>Price increases – CPI</td>
<td>1.8</td>
<td>-</td>
</tr>
<tr>
<td>Salary increases</td>
<td>3.3</td>
<td>4.2</td>
</tr>
<tr>
<td>Revaluation of deferred benefits</td>
<td>1.8</td>
<td>-</td>
</tr>
<tr>
<td>Increases for pensions in payment:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Fixed</td>
<td>3.0</td>
<td>3.0</td>
</tr>
<tr>
<td>RPI – subject to 5% maximum and 3% minimum</td>
<td>3.15</td>
<td>3.45</td>
</tr>
<tr>
<td>RPI – subject to 5% maximum</td>
<td>2.3</td>
<td>2.6</td>
</tr>
<tr>
<td>CPI (CARE) – subject to 3% maximum</td>
<td>1.75</td>
<td>-</td>
</tr>
<tr>
<td>Discount rate</td>
<td>4.3</td>
<td>5.25</td>
</tr>
</tbody>
</table>

The current mortality assumptions include sufficient allowance for future improvements in mortality rates.

The assumed life expectations on retirement at age 63 are:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Retiring today</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Males</td>

The cumulative amount of actuarial loss recognised in the statement of total recognised gains and losses is £23,579k (2011: £22,409k).

Defined benefit scheme assets do not include any of the institution’s own financial instruments, or any property occupied by the University.

The estimate for the employer contribution for the defined benefit scheme for the year 2012/13 is £3,400k.

The actual return on scheme assets in the year was £2,950k (2011: £8,732k).

31. Subsidiary undertakings

The subsidiary companies wholly-owned or effectively controlled by the University and registered in Scotland are as follows:

Dundee University Utility Supply Company Limited of which the University owns 100% of the issued share capital of two £1 Ordinary Shares. The Company generates heat and power, solely for the University.

Dundee University Project Management Limited, of which the University owns 100% of the issued share capital of one £1 Ordinary Share, is used to manage professional fees on major capital build projects.

AMCET Limited, of which the University owns 74% of the issued share capital of one hundred £1 Ordinary Shares. The Company’s principal activity is the promotion, development and commercialisation of novel technology.
Notes to the Financial Statements

31. Subsidiary undertakings - continued
University of Dundee Nursery Limited of which the University owns 100% is limited by guarantee. The Company promotes the care and education of children of staff or students of the University.

Dundee University Press Limited, of which the University owns 70.1% of the issued share capital of one hundred and fifty thousand £1 Ordinary Shares. The primary activity of the company is to publish academic books.

Dundee University Incubator Limited of which the University owns 100% of the issued share capital of one hundred and forty seven thousand £1 Ordinary Shares. The primary activity of the company is in support of new ventures.

Dundee University Sports Village Limited was dissolved in March 2012.

32. Connected charitable institutions
Two charitable institutions are administered by or on behalf of the University and have been established for special purposes. One of the connected institutions is included as a subsidiary undertaking in these consolidated financial statements; the other is not included in the consolidation since the University does not have control over its activities.

The movement in the year to 31 July 2012 on the total funds of the University of Dundee Nursery Limited, as reported in its Financial Statements, was as follows:

<table>
<thead>
<tr>
<th></th>
<th>At 1 August 2011</th>
<th>Income £000</th>
<th>Expenditure £000</th>
<th>Change in market value £000</th>
<th>At 31 July 2012 £000</th>
</tr>
</thead>
<tbody>

<td>131</td>
<td>174</td>
<td>(168 )</td>
<td>-</td>
<td>137</td>
</tr>
</tbody>
</table>

The Financial Statements of the Centenary Trust of Duncan of Jordanstone College of Art to 31 July 2012 have not yet been prepared. The Financial Statements for the year to 31 July 2011 show the movement in the year on the total funds as follows:

<table>
<thead>
<tr>
<th></th>
<th>At 1 August 2010</th>
<th>Income £000</th>
<th>Expenditure £000</th>
<th>Change in market value £000</th>
<th>At 31 July 2011 £000</th>
</tr>
