DUNDEE-ECUST Global Summer School is a collaboration between the East China University of Science and Technology (ECUST) and the University of Dundee (UoD). Since the Memorandum of Understanding was signed in 2008, the two universities have built strong collaborations in student and staff exchange programmes as well as research collaborations. The joint summer school programme provides Dundee students a chance to study in Shanghai together with ECUST students. The mission is to offer innovative education over the summer which is complementary to the traditional education tasks of the university. It will enhance learning experiences for students from both sides and increase knowledge of Chinese education and culture experiences accumulated at ECUST. The programme is funded by the Short-term Chinese Government Scholarship Scheme, which is the first of its kind for UK students, which aims to boost China-UK educational cooperation and help increase the communication and friendship between the young people of our two countries.

DUNDEE-ECUST Global Summer School offers courses a variety of fields and disciplines including Mechanical Engineering, Civil Engineering and Biomedical Engineering. Students will participate in innovative Science and Engineering projects, visit industries with new technologies and increase understanding of the supply chain network management practices in China. The Summer School will also increase Chinese culture appreciation through cultural field trips, language studies, martial arts and Chinese painting. We hope that through this programme, highly motivated students and professors from both UoD and ECUST will enjoy the study as well as further connections that can be made, as well as friendships in the long summer days.

For students attending this summer school, 30 full scholarships are available. This covers tuition fees, accommodation, meals, domestic transportation and insurance. Students are responsible for paying for international flights and visa (if required) as well as any personal spending money. Further information on costs will also be provided to students who have been accepted to study at the summer school.

Please note that if you have resit examinations, or think that you will have resit examinations in early July we would advise that you do not apply for this opportunity as you will not be able to take your resit exam whilst in Shanghai.

To apply, complete the application form and email to Jenna Hughes at j.y.hughes@dundee.ac.uk by 15th February. The interview will take place on 20th and 21st February and successful candidates will be informed within one week of the interview.
