For projects undertaken at a different research organisation than your own institution, you should enter the name of the person who will be supervising your work at the host organisation.

In some cases, particularly for lab based projects, the student may be supervised on a day to day basis by additional members of the lab, including post-doctoral researchers or lab technicians. You may enter the name of additional supervisors in the appropriate box on the form.

Project summary

In this section, you should provide details of the research project: title, timetable of research activities and a project summary. You will also be asked for the description of the proposed research (to be uploaded at the bottom of the form before the Submission stage) which explains what you plan to research in more detail.

Project timetable

Provide a timetable for the proposed research, stating the relevant milestones and timescale. You can enter a time period, for example Oct-Dec YYYY and then type a description of the research activity to be undertaken in that period.
