Foreword from the Chair of Court

A high performing community driving one of the world’s top 200 universities. A city that is in the midst of a transformation – highlighted by the opening in 2018 of V&A Dundee – which is making it one of the best places in the United Kingdom to live, work and study.

The University of Dundee is an extraordinary university. In searching for a new Principal and Vice-Chancellor we are offering an outstanding opportunity to lead an institution where we have our sights set on being Scotland’s leading university.

It is an ambitious goal but one we are well on our way to achieving. The person who becomes our next Principal will share that ambition.

We are seeking someone who embraces our values and sense of place, working with the leadership team and the University community. We are almost unique in placing equal value on research, on teaching and on the student experience. In doing all of that we look to fulfil our core mission, to transform lives locally and globally.

We are an inclusive university and look forward to receiving applications from a diverse range of backgrounds.

If you are ready to be that leader, who shares our commitment to excellence in everything you do and to the transformative power of a university, then we want to hear from you.

Ronnie Bowie
Chair of Court
The University of Dundee has a clear mission – to transform lives, locally and globally, by the creation, sharing and application of knowledge. We do this with world-class teaching, pioneering research and with work that has social, cultural and economic impact.

We are a Scottish institution operating on a global stage and with an annual turnover of £250M. Our impact is felt from the centre of Dundee, where we are absolutely central to the city’s future plans and prosperity, to the countries of the developing world where we are helping cure devastating diseases like malaria, and giving people life-changing opportunities for education.

We are home to a community of 17,000 students and over 3000 staff. Around 12,000 are undergraduates with 25% of our students coming from outside the UK.

Our ambition is to become Scotland’s leading university. In many areas – from widening access to innovation – that is a claim we can already make.

Our recently launched Strategy to 2022 places a high-performance community at the heart of everything we do and takes us forward in our next fifty years.

Dundee’s stunning waterfront along the Tay is being extensively developed, including the new V&A Museum of Design, an iconic building designed by renowned architect Kengo Kuma.
One city, many discoveries
Dundee occupies a stunning position on the east coast of Scotland, overlooking the River Tay where in summer dolphins can be seen playing. The city and its surrounds offer a high quality of living; city life combined with wide open spaces.

Dundee is friendly and compact. With a population of 150,000 it is small enough to walk round but has all the cultural and leisure activities you would expect in a much larger city. It is the UK’s only UNESCO City of Design and with the imminent opening of the only V&A museum outside of London has a growing reputation as a creative centre. The Wall Street Journal placed Dundee among their top ten places to visit in 2018, while GQ said it is ‘becoming Britain’s coolest little city’.

The best of Scotland is easily accessible from Dundee. You can take part in watersports on the Tay in the morning, climb a mountain in the afternoon and still have time to return for a show at Dundee Rep, home to Scotland’s leading theatre ensemble, in the evening.

We lie at the heart of Scotland’s fabled golf triangle, linking the Ryder Cup venue at Gleneagles and the Open Championship courses at Carnoustie and St Andrews, the home of golf.

Dundee is a post-industrial city that has worked hard to reinvent itself. The University is a key economic driver for prosperity and we’re involved in many partnerships across the city in areas such as social, education, cultural, business and the voluntary sector. We have strong links with the City Council, other local authorities, Scottish Enterprise Tayside (the local economic development company), NHS Tayside and range of other local and national bodies in Scotland and the UK.
The City of Dundee

Salaries in Dundee currently go further on the property ladder than almost any other city in the UK. The range of properties within commuting distance of the University covers the widest spectrum – from country houses and seaside cottages to handsome town villas and sleek city quay apartments. Dundee has put enormous effort into the redevelopment of the city centre and its stunning waterfront along the Tay is now being developed, including the development of the new V&A Museum of Design, an iconic building designed by renowned architect Kengo Kuma. The vibrant cultural quarter is home to Scotland's award-winning Dundee Rep Theatre and the highly acclaimed Dundee Contemporary Arts which has become a lively social hub and film house as well as a champion of leading-edge arts.

Dundee has become known as the City of Discovery – the place where Captain Scott of the Antarctic's ship, the RRS Discovery, was built and is now permanently berthed. It is a line that serves contemporary Dundee well with its reputation as a strong research-led environment.

The highest levels of annual sunshine, more green spaces and the purest air quality of any city in Scotland make Dundee a pleasant place to live and comparatively low levels of traffic cut the daily “hassle factor” considerably. An apocryphal tale has it that the local radio station has on occasion warned of traffic jams “causing delays of up to three minutes”.

There are 35 primary schools in the region feeding into eight secondary schools. In the private sector, Dundee High School is one of the leading fee paying schools in Scotland, consistently scoring well on academic and sporting achievement. A further eight independent/private schools are within driving distance including St Leonards, Strathallan, Glenalmond College and Lathallan School. Pre-school education is widely provided including a number of excellent private nurseries.

Dundee is just a 90 minute drive from 90% of Scotland’s population. Edinburgh is less than an hour away and Glasgow around an hour and a half by road or rail. If London beckons, you can get down for a meeting and back on the same day using Dundee Airport, flying direct to London. Short check-in times are an extra bonus and crystallise the quality of life enjoyed in this part of the world.
