- Active Area;** sports, changing rooms, showers, hang out room, stepped seating is a welcoming space to engage in physical activities and recreational sports, promoting fitness, skill development and socialisation.
- Hangout, Kitchen, Offices:** Connect, Share, Empower. Spaces for youth to relax, socialise, prepare meals and engage in serious discussions.
- The Adventure Zone:** Climbing, sliding, swinging. Providing a thrilling play area for active play, develop physical skills and create lasting memories of adventure and fun.
- The Creative Zone:** Art, Music, Expression. An inspiring space filled with art supplies for painting, drawing and crafting, as well as a music room equipped with instruments and recording studio for youth to express themselves creatively
- Connected Tunnels,** unite the youth spaces and each beam of the tunnel is uniquely designed, representing the individuality and diversity of the children who pass through the youth club.
- The Courtyard** is an outdoor oasis for relaxation and connection. A vibrant space for the youth to unwind, socialise and connect to the outdoors.
- Untamed Nature** for exploration and education. A natural wildness where youth can learn about the environment, explore native flora and fauna and connect with nature.

At Technicolour Works, we are committed to creating a safe and inclusive community that celebrates diversity and fosters a sense of belonging among its members. We believe that every child deserves the opportunity to grow, learn, and thrive in a supportive and nurturing environment, and we are excited to create a space where this can become a reality.

Our facility is designed with the needs of our members in mind, and includes a range of dedicated spaces that cater to their physical, emotional, and intellectual needs. We have a sports and fitness area that encourages active play and healthy living, an adventure playground that provides opportunities for exploration and risk-taking, a hangout space where members can socialise and relax, and a large kitchen that promotes healthy eating and cooking skills.

We also have a music space where members can express themselves creatively, an arts and craft space that encourages self-expression and creativity, and a nature space that promotes outdoor exploration and appreciation for the natural world.

Technicolour Works is a non-profit youth club that provides a safe and welcoming space for children aged 9 to 12 in Dundee. Our goal is to create a supportive environment where children can explore their interests, develop new skills, and build meaningful relationships with their peers.
